1	It is inconvenient bouncing bins up and down the steps. Your truck and bin system is fine for a "suburban" configuration where houses have a driveway to the street but is a huge disservice to those in older neighborhoods. The city managed to collect trash from our narrow alley for more than one hundred years before changing to the current system. This change seems to be for the benefit of the city (less manpower required, etc) with the residents providing much more labor than the reduction to the city.	11/11/2021 5:28 PM

1	Several times now we have had to move vehicles down the street or around the corner to then provide sufficient room for all the bins to be placed curbside.	11/15/2021 5:09 PM
2	We've had instances of moved/tipped over bins by individuals apparently trying to find a spot/park in a spot on the street. The bulk trash change only makes it more difficult all around for residents, both for owners and renters.	11/15/2021 4:23 PM
3	It impacts kids walking to school with limited visibility at crosswalks due to 3 bins per household in many cases. Spill containers of trash and recycling end up on the storm drain because it is located right near with many residents place their trash because it is a no parking zone.	11/11/2021 4:59 PM
4	Sometimes. Our block has tight parking anyway at times, and on pickup days it definitely impacts parking.	11/11/2021 4:17 PM

Q11 The only snow control in alleys has been city trash trucks compacting the snow. Will you have trouble getting trash safely out of your alley to the street or the end of the alley?

1	We are located mid block. No plows, means I'll now get to navigate ice and snow while hauling my bins. Or I can take them up the steps from the alley through my backyard down my side yard and then through the front yard, tree lawn, to the curb which no doubt will present placement issues on the street with parked cars and snow.	11/15/2021 5:09 PM
2	This is an open ended question. We expect heavier than normal snow this year so this will mean increase shoveling so that neighbors can get out of their garages and navigate trash, recycling, and compost bins safely. The city already requires volunteers to assist with shoveling the right of way. This is another burden shifted to taxpayers at a time that tax increases have happened and service has been reduced. Meanwhile the City's budget increases. City failed policies are not the fault of the taxpayers and residents.	11/11/2021 4:59 PM
3	We will have trouble getting out of our garage with no snow compacting by trucks.	11/11/2021 3:56 PM

1	I keep switching from alley transport to going through the yard. I've got three bins so that's three chances of falling on my can as I go up stairs, down stairs or down the Denver Hill. I don't know which is or will be worse.	11/15/2021 5:09 PM
2	We have had to help our neighbors who don't know there is help or won't ask for help because they do not want to deal with city personnel who are often hostile, ticket them, and harass them.	11/11/2021 4:59 PM

1	There are issues with putting bins to the street on school days and especially during pick up and drop off at Teller Elementary. Bins are missed, contents are left scattered all over the street, and parking isn't possible at times.	11/23/2021 10:23 PM
2	It's not just 'my opinion.' Ask the people that drive the street sweepers, Not to mention 12th Avenue at Monroe / Garfield is a major commuter stretch for Teller Elementary and Cars, Trucks, Bins, and Kids don't really mix well.	11/15/2021 5:09 PM
3	The trucks should have been designed to safely go down the alley! They are too big and too wide. Poor design!	11/11/2021 8:21 PM
