5	Not in the alley, but my 100-year old front steps are now chipped and stained purple from heavy recycling bins	11/12/2021 8:14 AM
6	The damages experienced are due to the extreme crown in the streets that make it difficult for the larger trucks to crest the crown. This has caused damage to the roadway and, I'm guessing, also to the city trucks. Curb damage has also occurred due to the same issue.	11/11/2021 5:13 PM

3	Question is kind of confusing. Not sure what "safely out of your alley" means. Trash cans are to kept on owners property not the alley so that's why I don't understand.	11/13/2021 7:47 PM
4	Our trash containers are behing our back yard fence.However, it would become difficult to pull the containers to the end of the alley	11/12/2021 11:13 AM
5	No - because like all of my neighbors, we have moved our trash to the front side yards. It is unsightly and sad but living in the middle of the street, it is not feasible to drag it 1/10 of a mile from back to front.	11/12/2021 8:14 AM
6	It has been an absolutely silly change to require bins be put on the street instead of in the alleyway!	11/11/2021 5:13 PM
7	I keep my trash bin closer to the street now Please please don't switch trash back to the alley	11/11/2021 4:41 PM
8	With trash pick up now in the street, we now keep our cans in the narrow driveway, and have to park our car in the street (garage access is street facing).	11/11/2021 4:30 PM

5	If my husband was not available, I would not be able to get the trash out there. I do sometimes pull up the empty container and it is very very heavy to pull up the front steps. There will be a time we will not be able to do it.	11/12/2021 11:13 AM
6	No, because I am not elderly or disabled, I don't think that would be fair. Instead, I am planning to move.	11/12/2021 8:14 AM
7	but I will have to soon	11/11/2021 11:57 PM
8	I'm pregnant and getting our bins down to the street is actually quite dangerous now. I slip on the hills going up and down and have asked my neighbors multiple times for help.	11/11/2021 5:22 PM
9	Once again, it has been, and still is, a silly requirement in my neighborhood to require bins be placed on the street vs alleyway. it is, after all, what the alleyways are design for and many residences have designed their trash/recycling space accordingly.	11/11/2021 5:13 PM

1	BINS ON THE STREET ARE A HORRIBLE DESTRUCTION OF OUR PROPERTY VALUE AND CONVENIENCE. the city should collect trash from the alleys we built for that purpose.	11/27/2021 11:49 AM
2	Unsure at this time. Other bins were already picked up in this location	11/23/2021 6:12 PM
3	they interfere with street sweeping.	11/17/2021 4:42 PM
4	Student drop off at Teller Elementary	11/17/2021 12:56 PM
5	Not sure about this answer because I don't park my car in front of my house so it's fine but I know other neighborhoods parking is scarce. What's nice is it prevents the lawn services from parking in front of my house.	11/13/2021 7:47 PM
6	Our trash, vehicles, and utilities are meant to be accessed through the alley ways. I can not physically haul my trash can down the hill in the lawn, across the tree lawn and out to the street. My trash can has to remain in front of the house because the area between the house and property line is too narrow for trash can. Trash trucks need to go through the alley to pick up our trash on trash day. Congress Park was not designed to haul trash cans to the street. THAT is what the alleys are for. Change it back to trash service through the alleys NOT PICK UP ON THE STREET. It's unsightly, and extremely difficult to haul garbage cans over the lawn. I have no idea what to do when it snows. I have NO driveway.	11/12/2021 11:25 AM
7	One side of out street does not get swept because the trash containers are out there. The schedule should be changed.	11/12/2021 11:13 AM
8	At least not on my corner	11/12/2021 9:03 AM
9	The narrow streets are already problematic to navigate for cars, peds, bicyclists and street sweeping. Frequently, motorists are required to stop and pull over, in order to allow an	11/11/2021 5:13 PM

oncoming vehicle pass. The addition of the bins exacerbates the congestion making it more unsafe for all users on the road.

10	Absolutely no We already have green and purple bins on the street and adding black bins is absolutely no problem plus if you recycle and compost there should be very little trash in your black bins	11/11/2021 4:41 PM
11	Yes, with street cleaning. Safety is somewhat of an issue as we now have to park our car in the street so we can maneuver around the cans now kept in the driveway. With theft from and of autos increasing in our neighborhood, this is concerning.	11/11/2021 4:30 PM
